Type of Rate: Fixed												Calculation Method: Daily		Dividends Paid/Period: Monthly		Closed Account: No Dividends	
												Additional Deposits: Not Allowed		Withdrawals of Principal: Allowed		Withdrawals of Dividends: Allowed	

**Account Information**  
**Dividends - Savings, Checking and IRA Accounts**  
 Dividends are determined by the Credit Union Board of Directors and are subject to change as described in the dividend section of the Rate and Fee Schedule. Dividends are paid from current income and available earnings after reserve transfers at the end of the dividend period. The Dividend Rate and the Annual Percentage Yield are rates the Credit Union anticipates paying the next dividend period.

The dividend period begins on the first calendar day and ends on the last calendar day of the dividend period. Dividends are calculated on the average daily balance in the account. Dividends will accrue on cash and non-cash deposits on the business day the deposit is made to your account. Dividends are paid to your account on the first day of the next dividend period.

**Dividends - Certificate Accounts**  
 The Annual Percentage Yield is based on the assumption that the principal and dividends will remain on deposit until maturity. A withdrawal of either principal or dividends will reduce earnings. The dividend period begins on the first and ends on the last calendar day of the dividend period. If you close the certificate prior to accrued dividends being paid, you will receive your dividend payment. For all certificate accounts, the rate will be fixed and will be in effect for the entire term of the certificate.

**Account Limitations**  
 For Savings, 01, 02, 03, IRA and Christmas Club Accounts, no more than six (6) preauthorized, automatic, or telephone transfers may be made to another account of yours or to a third party in any month, and no more than three (3) of these six (6) may be made by check, draft or ACH to a third party.

**Christmas Club Accounts** - The first week of November, for accounts with balances over \$15 will have their funds transferred to account (01). There are no deposit or withdrawal limitations.

**Certificate & IRA Certificate Accounts - Early Withdrawal Penalty**  
 We may impose a penalty if you withdraw any of the principal before the maturity date. The penalties for early withdrawal are indicated in the Rate and Fee Schedule.

How the penalty works: The penalty is calculated as a forfeiture of part of the dividends. The penalty is based on dividends earned and on the amount withdrawn and will not reduce principal.  
 Exceptions to Penalties: At our option, we may pay the account before maturity without imposing an early withdrawal penalty under the following circumstances: 1) When an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction; 2) Where the account is an IRA and any portion is paid within seven (7) days after establishment; or 3) Where the account is an IRA and the owner attains age 59 1/2 or becomes disabled.

**Certificate and IRA Certificate Accounts - Renewal Policy**  
 For all certificate accounts except Jumbo and IRA Jumbo Certificates, your account will automatically renew for another term upon maturity. For all renewable accounts, you have five (5) days after maturity in which to withdraw funds in the account without being charged an early withdrawal penalty. For Jumbo and IRA Jumbo Certificates, dividends will not be paid after maturity. The dividends can either be transferred to another account of yours at the Credit Union or paid to you by check.
