How secure is Mobile Money?

We safeguard your personal information using multiple security measures, including authentication, encryption, and more. No mobile banking text message returns personally identifiable information, such as your full account number, PIN, email, or personal address. Your user ID and password will never be included or asked for in any of the text messages that you receive from or send to Mobile Money.

For added security, if your phone is ever lost or stolen, simply log on to Online Banking and update your Mobile Money phone settings, or contact Member Service at 770-270-7851.

Based upon wireless network availability. This is a free service from GEMC Federal Credit Union, though you may be charged for services by your wireless carrier. Contact your mobile provider for information about fees associated with sending or receiving text messages and/or accessing the internet from your mobile phone.
